

The Most Experience + The Largest Network = A Winning Combination

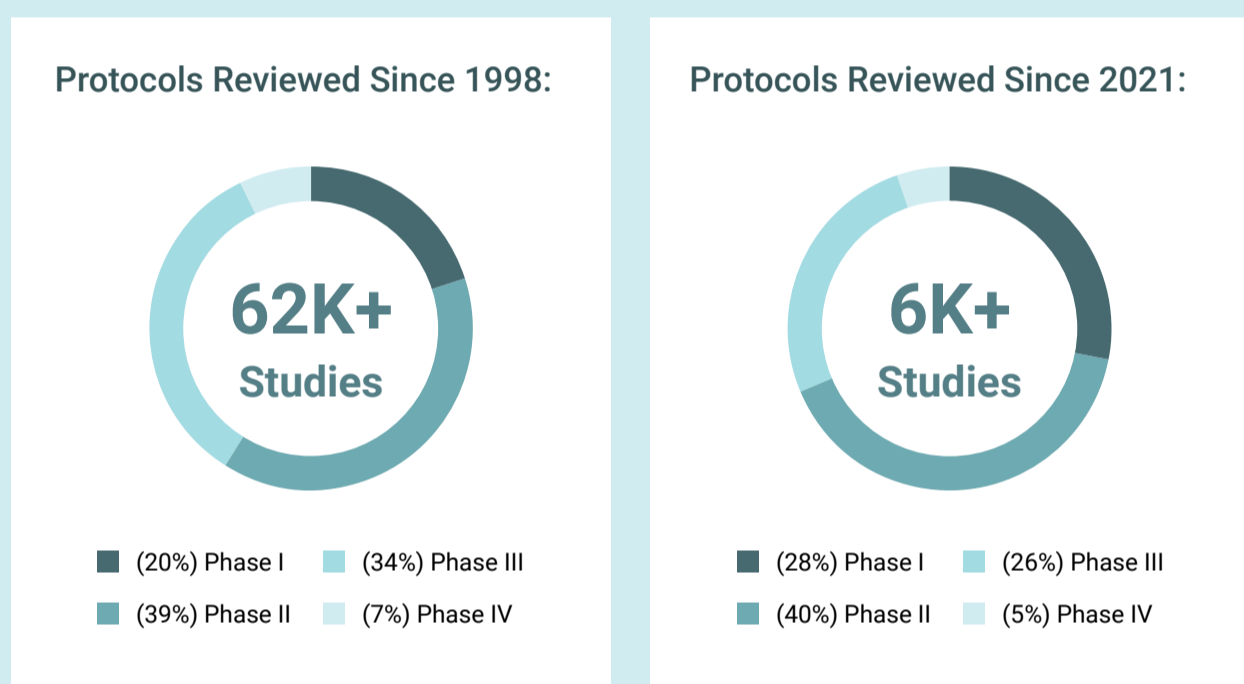

A History of Unparalleled Expertise

Spanning the largest network of Central Sites & Institutions of any Central IRB, WCG IRB has reviewed over 62,000 studies across nearly every therapeutic area in over 300,000 sites across North America over the past 20 years. In addition, we've amassed contractual partnerships with over 3,300 institutions. Our breadth of experience ensures something that no other IRB provider can offer: *we know how to work with your sites, and they know how to work with us.* By tapping into our partnerships, you gain unmatched expertise, one-of-a-kind insights, and a confident path to ensuring on-time study reviews. That's why 93% of all FDA-approved clinical therapies involve WCG!

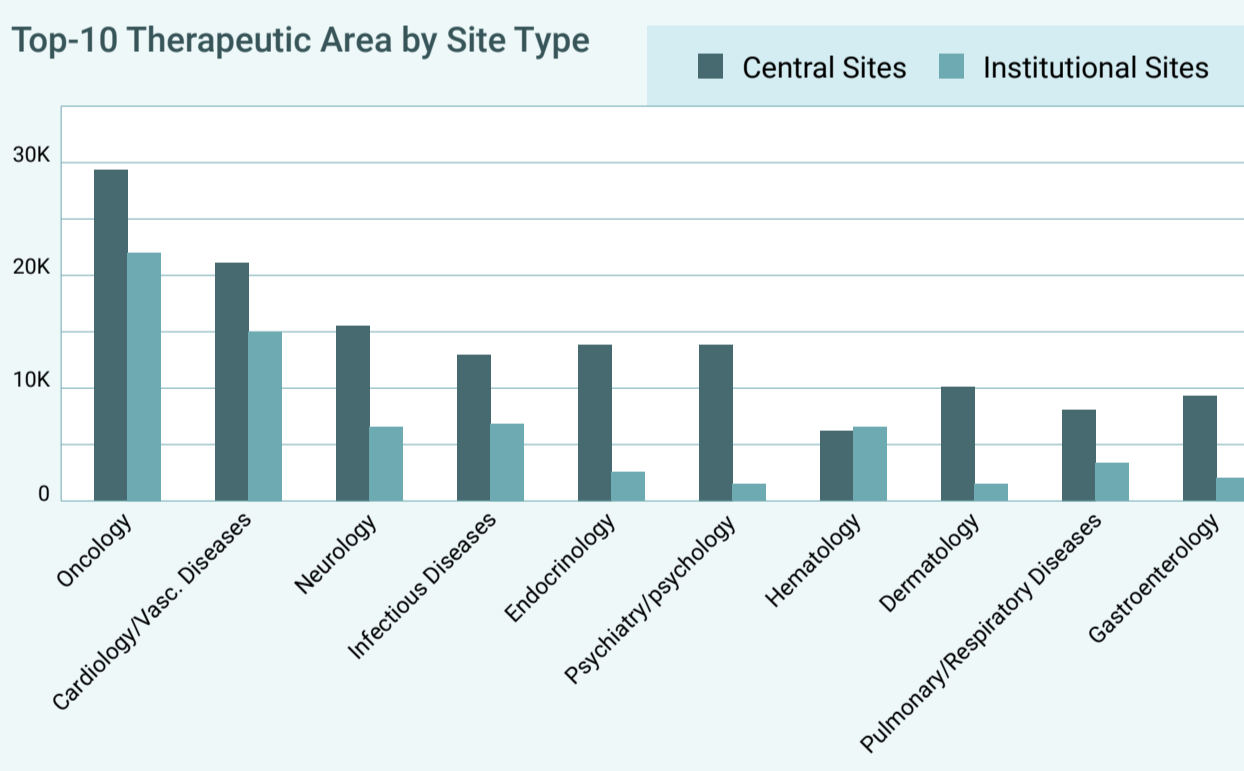

The Largest Site Network Available

WCG IRB Has the Most Experience

WCG IRB Has the Most Expertise

Our Comprehensive Site Experience Provides

- 1 Protocol Consultations with WCG IRB's Bench of Ethical and Regulatory Experts
- 2 Cataloged Site SOPs and Templates Enabling Streamlined Processes
- 3 Single POC Who Knows Your Studies and Manages Your Workflow
- 4 Fully IBC Registered Sites with Concurrent IRB & IBC Protocol Reviews
- 5 Elimination of Local IRB Review with 3-5 Day Site Approval Times

The Benefits of Our Expertise
