

Our Mission

We accelerate the development of new medical therapies by improving the conduct and quality of clinical trials. We do this through our industry-wide platform that connects all stakeholders in the clinical trial process, and by expanding access and awareness for clinical trials to all health care providers and their patients.

Who We Serve

WCG connects and partners with all major stakeholders in the clinical trials ecosystem:

Our Impact

90% of all clinical trials leverage WCG

92% of FDA-Approved Therapeutic Agents are supported by WCG

30+ technology-enabled, data-driven, and expert-guided solutions support client needs

50+ SMEs bring deep domain expertise

4,000+ clinical trials supported within the last year

1,700+ employees worldwide operating in 21 countries

Our Audiences

Sponsors/CROs

- 5,000+ Biopharma and CRO clients, of which 4,000+ are small and mid-cap Biopharma
- 50 of 50 Top Pharma
- 8 of 8 Top CROs
- ~200 Small/Mid CROs

Sites - Institutions/Investigators

- 3,300+ Institutions
- 250,000+ Global Investigators
- 10,000+ Sites

Patients/Advocacy Groups

- 100+ Patient Advocacy Groups
- 2.5M Patients in WCG-supported studies

Our Solutions

Our partners benefit from solutions and expertise in support of all aspects of the clinical trial process.

Ethical & Scientific Review Solutions:
We maximize research participant protections and save essential time in pursuit of clinical discovery.

Clinical Trial Optimization Solutions:
Our highly specialized solutions have been designed to address critical inflection points that can enhance or derail quality outcomes throughout the clinical trial process.

Data-Driven Insights:
WCG Knowledge Base represents the deepest and most powerful source of industry data, analytics, and benchmarking to reduce uncertainty, mitigate risks and accelerate drug development.
